In the Curious line, the 2 textures (Poison Ivory and Cryogen White) have super smooth surfaces with distinctive opalescent hues, and perform superbly with a wide variety of printing techniques, including rubber stamping. The remainder of the Curious Metallic line are metal papers with a glossing sheet on both sides of this rough-bottomed sheet. The distinctive metallic surface of the papers will show through the ink and may reduce the image contrast. Due to the optical effect of these papers, the print result will differ from standard uncoated sheets. Suitable for widely used print techniques.

NOTE: If we have named the stock differently, the mill name is listed as ("Mill Name") after our stock name.

So...Silk dresses luxury with elegance.

The surface of this material features a sensuous silky touch, together with an iridescent visual effect across the color range of 6 fashion inspired shades. So...Silk is a premium fine paper produced with silk fibers and ECF (Elementary Chlorine Free) pulp, creating a surface which is characterized by a special "silk effect" that makes the paper particularly soft.

APPLICATIONS: Paper ideal for Greeting Cards and Invitations, Luxury Packaging, Covers, Covering, Catalogs, Brochures, Calendars, Annual Reports, Tags, Inserts, Shopping Bags and others.

DESKTOP: Not recommended for Inkjet. Testing is recommended for Laser. (In-house testing done on HP & Dell Laser - produced crisp printing and toner did not flake off)

RUBBER STAMPING: Recommend using a Permanent Ink, such as Star On. Other inks may need to be heat set or embossed.

SKIN offers matte colors that are amazingly homogeneous with an ultra smooth feel, along with visual smoothness, which makes makes touching it hard to pass up. The very fashionable bold colors heighten the quality of your creations. Skin is resistant to abrasion and presents unequalled resistance to finger-marking.

Suitable for all widely used print techniques. Desktop applications - testing is recommended.
(In-house testing done on HP and Dell Laser printers - produced crisp printing and toner did not flake off)

RUBBER STAMPING: Depending on the ink used, dry times may vary.
